Hospital Management System Project in Java | Free Code PDF

Create a mini Hospital Management System projects in Java with source code and download a report PDF free. This mini-project should contain the doctor-patient table with all records. for example Doctor name, Timinming speciality, and availability. Hospital Management projects should have all the necessary requirements and to full fill, the needs create a java project for management staff of the hospital also download the code and report in free. Do you know This is the most important and mostly asked projects in schools and colleges?.

Hospital Management System Project in Java Explanation

This(Hospital Management System Project in Java with Source Code PDF) is very popular projects among students. In this project, I cover 1. DOCTOR, 2. PATIENT, 3. MEDICAL, 4. LAB, 5. FACILITY, 6. STAFF tables. Now take an example of Doctor table, I already saved some doctor details, when you select option 1. The doctor than 2 option will occur and 1.new entry or 2.doctor list Here you can save the details of New Doctor like Below.

1. ID:
2. Name:
3. Specialization:
4. Working Time:
5. Qualification:

Simple Java Program for Hospital Management System

You can see the newly updated list of the doctors and by pressing 2 you can see those details Check Below.

Doctors List

ID	Name	Specialist	Timing	Qualification	Room No.
21	Dr Ghanendra	ENT	10-04	MBBS, MD	17
32	Dr Vikram	Physician	10-04	MBBS, MD	45
17	Dr Rekha	Child	10-04	BDM	8
33	Dr Pramod	Artho	10-04	MBBS, MS	40
17	Dr Yadav	Artho	08-12	MBBS	12

In this Hospital Management System Project in Java with Source Code PDF. You can also check the patient list or you can admit new patient same as Doctors List for that you have to go to the main menu and select patient than 2 option will occur 1. Add New Entry or 2. Existing Patients List and by pressing 2 you can check the patient details. These are the list of my friend and they are not patient they are absolutely fine(Just for Fun).

Patients List

ID	Name	Disease	Gender	Admit Status	Age
12	Pankaj	Cancer	Male	y	30
13	kuli	Cold	Male	y	23
14	Samya	Malaria	Female	n	45
15	Ravi	Sugar	Male	y	25

You can find all the tables at the end.

How to Run Hospital Management System in Java

How to run this Hospital Management System Project in Java with Source Code PDF. First, create a folder in your desktop with any name then after save or download the code as hospitalmanagement.java. Now open a command prompt by pressing **win+r** simultaneously and go to the location of the **hospitalmanagement.java** by using the cd command.

*CD desktop
CD "folder name"(without quotes)*

Now run the below command. The first, command for compile the program and second one for run the program.

*javac hospitalmanagement.java
java hospitalmanagement*

after running the command their will be 7 .class(doctor.class, facility.class,hospitalmanagement.class, lab.class, medical.class, patient.class, and staff.class) will be created.

Now your program is ready to work do whatever you want to perform operations. We also have some competitive websites solution in C, C++, and Java Programming languages. [Free Download Java Projects](#) and others here.

Hospital Management System Project in Java with Source Code PDF

Below you can find the Hospital Management System Project in Java with Source Code PDF. This is a very important mini or we can say that the medium size of project for bachelors and masters student.

```
import java.io.*;
import java.util.*;
import java.util.Calendar;

/* Hospital Management System Project in Java with Source Code PDF Visit for more
https://www.programmingwithbasics.com/ */

class staff
{
    String sid, sname, desg, sex;
    int salary;
    void new_staff()
    {
        Scanner input = new Scanner(System.in);

        System.out.print("id:-");
        sid = input.nextLine();

        System.out.print("name:-");
        sname = input.nextLine();

        System.out.print("designation:-");
        desg = input.nextLine();

        System.out.print("sex:-");
        sex = input.nextLine();

        System.out.print("salary:-");
        salary = input.nextInt();
    }
}
```

The output of Hospital Management System in Java

A screenshot of a Windows Command Prompt window titled 'HOSPITALMGT.java'. The window shows the following text:

```
new 1 [ ] new 2 [ ] new 3 [ ] HOSPITALMGT.java [ ]
1 import java.io.*;
2 import java.util.*;
3 import java.util.Calendar;
4
5 /* Program By Ghanendra Yadav */
```

The command prompt is located at the bottom of the window, showing the path 'C:\Windows\system32\cmd.exe'.

```

6  Visit http://www.programmingin.com
7  */
8
9  class staff
10 {
11     String sid, sname;
12     int salary;
13     void new_staff()
14     {
